

## **Board of Christian Education**

The Board of Christian Education partners with the Senior Minister to develop spiritual programs that stir and enrich mind and soul. Probing, thought-provoking Bible studies evoke lively conversation throughout the year, taking place at the church or over dinner in parishioners' homes. The Board also collaborates with the Director of Children and Family Ministries to create meaningful classes that introduce Scripture and Christian beliefs to children through relevant, easy-to-understand lessons and activities that foster deeper friendships and respect for individualism. An outward-focused church, WCC's Children's Church provides hands-on opportunities for students to help others in need through food drives, baby care kit collections and other activities.
