

Building & Grounds Committee

Constructed in 1790, the church's historic sanctuary is a Wilton landmark that once served as the town's central meeting house. Two subsequent additions in the 1950s and later, in 2009, provided environmentally sustainable, contemporary space for the ever-expanding ministries and activities taking place at this iconic New England church. WCC is also home to a historically significant parsonage, two antique barns and the Wilton Playshop. The Building & Grounds Committee oversees all landscaping, maintenance and improvements for these properties and the 10.3 acres upon which they are situated as well as those at Hillside and Sharp Hill cemeteries, which comprise 28 acres of peaceful, pastoral land.
